

## The Monthly Observations

*for June 2021*

Welcome to Psychic & Energy Work's *Observations* for "June 2021". They profile this month's energetic rhythms and link to this year's forecast. They aim to help you learn and process spiritual and energetic life. Implicit in this are intuitive and invisible dimensions. Insights about collective rhythms can be useful when life's challenging. They help us link back into the big picture – what's truly real (and really true!) universally.

Every month brings its own dynamics which interact with the year's chart. Outlined below are the main numbers followed by my *Observations*.

**“June 2021”’s numerological tally....**

Combined with the year’s numerological profile, this month produces the following count. Examining a chart from this angle can help us understand what’s going on. It doesn’t, in itself, signal “good” or “bad” (life often delivers a mix). What we can find initially jarring often promotes better existence. A count like this can help us process and make sense of things. When a number presents three or more times, its energetic and spiritual themes (and lessons!) increase.

The tally for this month is:

Number	0	1	2	3	4	5	6	7	8	9
Frequency	4	8	9	2	1	4	3	1	-	2

Let’s look closer at this.....

**“June”’s birth numbers are “6” and “2027/2”**

healing, truth and sharing could be strong themes

Authenticity is a “6” dynamic and, therefore, learning curve. We don’t really live ‘til we’re real with self. That’s a constant dance and, sure, there are distractions. The dare is to remain centred at all times – so easy to write and aim for! “6” denotes harmony in action; truthful, real, soulfulness. “2” represents the world of interaction; the equitable sharing of space. You’re probably sensing where more of this could unfold in your world. “6” calls for health and, so, can require us to become more proactive about this. Physical ailments are of/in the body but everything starts energetically. Vibes entertained breed end results – good and bad – in any sphere. Many have felt stretched, of late, to channel the next degree of truth. “Time to get true” to self then all other could also present as a “June” theme.

Are you ready to go the next level in how/what you do, be, think, feel, project? “6” seeks care – mentioned on the Home Page. How are you doing with this? Care can point to consideration – less reactivity. Proactively done, it dims the need for redress: get it right the first time; don’t promote sloppy being. Easy to say when life is moving so rapidly on many levels. “6” helps us learn how to stay grounded in solid structures, approaches, plans. Are you allowing enough balance in or letting life or other skew focus? Consciously and regularly choosing to reboot is essential in this light. It helps to keep peace as an end state in and around everything. By letting go of mantras, views and tactics we help make room to confirm/quality check responses. Are you exercising, chilling and appreciating life as much as future balance needs you to?

Gut feel is an amazing dynamic. It’s the most authentic sense yet it’s often dismissed. When body is in a state of tension, it’s being used to highlight key guidance intuitively. Through clair-voyance, -audience, -sentience, -olfaction and/or -tasting, Source guides people well. Felt imbalance is the universe’s way of flagging that it’s time to regroup (take time out). That might be about what you are emitting; it could point to other beings, too. We tend to fall off rails less and less, the more proactively balanced we are. Breath, quietness, enjoying nice landscapes and listening to body help to ensure that life-giving energies prevail. Is what’s been unfolding around you, of late, meeting this brief as you know it can?

So... "6" is "get real" as an atom in creation. So is "11" which subtly features this month. Double "1" links us back into big pictures so that we can sense and interact better. As a master number, it can foster oddness; dynamics which block and/or highlight issues. "1"s check the level of self we are channelling. Life throws up mirrors to help us improve. "1" is inner child, "pure" or "evil"; another choice about which one drives. It represents life as a journey – a series of choices and, through that, discoveries. Egoic self has a short-term focus. When we come to know better, we often choose new views. That needn't mean a radical shift; it can simply point to more length or breadth. "1" phases guide selves out of limit and any excessive immaturity. It depicts our discovery of self in "me", "you" and "them" at any time; all that can involve; and how to mentor child effectively. It wants horses backed; gut feel respected; considerate interdependence. It's only through knowing ourselves truly, really - and why we do/be "that" - that people begin giving, knowing **and** receiving in essence.

"2027" is due to reveal how folk might become more spiritual – i.e. to the next layer, in the next instance, more practically, as a constant. The realm "202\_" is potent. It flags group then space then grouping again. Can you sense why time out matters? We often come to fathom by respecting the role of space. Processing stuff helps self bear its torch without obliterating others' lights. This month could find perspectives fine-tuned and universal will flowing back. Life is constantly helping us progress even when it seems to block. It's funny how things always come together to explain, heal and prepare when it is time.

Don't be surprised if you receive guidance, this month, that adds good value. When egoic self is mentored to care well, what is divine becomes more tangible/real. This is one reason why gut feel matters as an indicator of health. The Divine likes to give to help others. It's never judgmental or selective. Those types of views only prevail when we have yet to understand things. This year's chart contains "11" so Source could reveal Itself in ways selves cannot dismiss. Karmic vibes prompt spiritual being; more grown-up stances; inclusivity. When they present, self can experience more energetic or invisible things. Psychic connections can become louder in a bid to confirm our stances in life. Such dynamics are about helping **long-term** goodness manifest. This month could prompt awareness along these lines. Don't be surprised if this occurs. "7" flags learning; wisdom that's channelled and helps people centre, act, grow well.

### **This month's M.O.s are "14/5" and "109/1"**

"1"s feature so selfness will, too.

"1" can be seen as the spectrum of self-ness as it can present. That's a range we all swing through regularly. This might explain why "1" also denotes adulthood and leadership. Child grows best when mentored as/by soul. There's an amazing adult in every being waiting to feature in the fore. This, too, highlights why time out is crucial – the type that helps minds reboot. Quality downloads are only heard when we make room for such things. Shifting focus towards health and nature helps selves stop referencing sideways too much. Energy is real; the best guidance comes from sky; and this needn't devalue physical life. Over-extending sideways can find us over-mixing with egoic rhythms. Our own or others', that's by the by. Referencing up to Source can make an enormous difference. I say/write this often: "intuition" is just energetic sensing. People have a choice about what they link with - lighter or heavier; wholistic or narrow. We don't fill a petrol tank with shampoo nor should we connect to less than pure and clear. Self needn't stand as victim or puppet, even in the world of energy. We can all need to learn about this as intuitions. Rarely does one start at best practice. Life's about learning through experience. "1"s, this month, plus master numbers could help people become get truer.

Life never lets self rest in one place too long. It's continually onwards and upwards again. "109" is another master number that signals chances to close off things. It sorts stuff out on any level; gets us to clean up; move on from stances that no longer fit. This can point to our own ways of being or those of others we're mixing with. It also flags compassion; selfness that's beyond self. Even here, consideration blooms. "1", as leadership, also points to such things. These vibes could ask people to grow righter outcomes - look after planet; care about neighbour; be real in dealings; those sorts of wavelengths. This "June" might see you channeling these dynamics more. "0" denotes Source in action, helping, nudging, forcing at times. That's the role of a guide. Creation's not ours. We're renters of space, only for a while. We're also conduits who choose every second what we will live in and entertain next. Every potential needs a healthy channel. How can you co-create more of what is real and amazing?

"1", as leader, invites us to live as example more constantly. Be what you seek. It ain't going to grow unless you, first emanate with it. Dare to speak. Be first when needed even if everyone else runs away. Courage is required, every so often. Taking the plunge can seem a risky affair! Yet, gut feel is truth; it never misleads; it's always met with support. That doesn't necessarily come from known sources but that's not the same as you're on your own. When we dare to be our truth, minus all ego, we represent truths which can't stay mute. Leadership can feel alone, yes, at times but that is just life on the arrowhead. We are as we can, with different timings, yet goodness is the firmest vibration of all. It stays the same irrespective of channel and never leads self to isolated zones. Daring to be and live truth without agreement from desired sources never ends up lonely. When spiritually connected, Source kicks in louder to steer us to states and groups that are affirming. Be yourself to future enhance. Don't fret if others can't yet agree with you. We're not the same. That doesn't mean problems unless we're overly nurturing egoic needs.

### **clearings, healings & meditations over the phone**

... not to mention readings and other forms of energy work. Sometimes, life presents in ways that stun us – often just as we need to stay grounded. Via WhatsApp, Skype, phone, video or email, I tune into what's been happening to help you understand and clear it. Sessions are recorded so that you can revisit the guidance you're given. ### **The reality numbers are "20/2" and "2136/3"**

this month is a time for manifesting well

"3" is a time to realise, clarify, confirm things. That suggests more wake-up calls are coming – the type that brighten/lighten ways forward. This "June" could see bulbs a-flashing – the types that people celebrate. The more we make room for spiritual downloads, the more miracles we propagate. That can mean more **forward** movement; sometimes, it is upwards. The Divine likes to express Itself and a key to this is making space. When self lets go of knowing, efforting, projecting – for a moment – it tends to sense/receive anew. This often helps people navigate, notice, finetune and future-proof.

"20", this "June", aims to add value wherever we let divine wisdom in. Heal, relax, goof off and have fun; stand as usher; welcome flow in. "3" also speaks of working **with** what comes – not against it (e.g. driving too hard). Life **is** flow – a river that's wider than the individual can be. It's best not to try to own or control it. Sooner or later, that is backfire-guaranteed. The more self grips, tenses or holds

fixed, the harder it can fall. That needn't stop us trying or striving but it really does pay to share. We each have a role (and value) that's solid; eternally supported when we're in right groups. Here for a reason, self's only ousted when it's in amongst what's overly egoic. This is easy to forget - control can mean safety - yet "going with flow" is amazingly potent. It's not apathetic, dismissive or avoiding. It simply lets space, life and other inform. The more we know this, the more guidance helps us. Life has an interest in guiding every being well. See if you can tap into this more as something you sense, know, believe. Source loves guiding. It likes attention. That births new chances to give more. The chance to demonstrate Its realness is constant. Through this, self is helped to learn and be more.

Another "3" aspect is expression. It flags what we think, feel, know and project. Silent self-talk acts as instruction to the universe about what we believe we can receive next. This highlights the need for optimism; upward swings on every thought. Never end sentences with a negative. We tend to attract what we affirm. The more self remembers all that has been good, the more it receives that's in a healthy condition. That's easy to say in a wealthy country that's relatively safe and virus-free. "3" is self confessing and expressing to self (not only what it shares with other beings). Never think you are alone, unheard or abandoned. Silence ("0") is a place where that's thought often. The best "zero" weed spray is optimism. Nothing's simply the start of what's still coming. Keep that good in mind and self-talk. This can be hard some days. Through egoic vistas and challenging moments, Source helps us mature and enjoy life as it is.

So? All in all, this "June" should unfold positively. It could end up showing you more about all sorts of things. Insights could benefit physical worlds in practical ways. They often do, hey? Perhaps more this "June". You may become more conscious about your role in things; what you **can** do. Also likely is a greater sense of other as something that is worth respecting. We don't need agreement; not even liking; but mutual respect helps. Fair and square – live that in truth by divesting of vibes which repress that. Difference is another "1" aspect, one that egoic self guards jealously. We're each here to grow and glean beyond limit. Do what you can, this month, to promote and burst into greater, wider, soul-level freedom.

### What about your chart?

We each have a specific numerological profile that stems from our date of birth, full birth name and last birthday. I've outlined the collective rhythms for this month but have not talked about your **personal** chart. Readings that merge numbers with intuitive downloads can help you transition through all sorts of things. They're all about soul - linking to and channelling it more - and what can occur when we do this.
