*for August 2021*

Welcome to Psychic & Energy Work's *Observations* for "August 2021". **They profile this month's energetic rhythms and link to this year's forecast.** They aim to help you learn and process spiritual and energetic life. Implicit in this are intuitive and invisible dimensions. Insights about collective rhythms can be useful when life's challenging. They help us link back into the big picture – what's truly real (and really true!) universally.

## "AUGUST'S NUMBERS

Every month brings its own dynamics which interact with the year's chart. Outlined below are the main numbers followed by my *Observations*.

### This Month's Chart

	<u>each year</u>	<u>in 2021</u>
<b>Birth Number</b> - what we're here to be/become & exemplify again	<b>8</b>	<b>2029/4</b>
<b>M.O.</b> - how we're likely to arrive at that point	<b>17/8</b>	<b>112/4</b>
<b>Reality Number</b> - the spiritual result(s) of doing such things	<b>25/7</b>	<b>2141/8</b>

### "August 2021's numerological tally....

Combined with the year's numerological profile, this month produces the following count.

**Examining a chart from this angle can help us understand what's going on.** It doesn't, in itself, signal "good" or "bad" (life often delivers a mix). What we can find initially jarring often promotes

better existence. A count like this can help us process and make sense of things. When a number presents three or more times, its energetic and spiritual themes (and lessons!) increase.

The tally for this month is:

Number	0	1	2	3	4	5	6	7	8	9
Frequency	2	9	8	-	3	4	1	2	3	2

Let's look closer at this.....

### **"August"s birth numbers are "8" and "2029/4"**

it's due to hone visions and get frameworks right

Such dynamics are often fostered when "8"s and "4"s combine. Life is naturally wired to help self attract, manifest, experience good. Egoic self, dogma and theories can obscure this sort of view. "2021" is here to boost change as healthy, wholesome, spiritual. Bearing three "5"s, some of that will come about through stretching. Like that yoga pose that first hurts, "5" wants us accessing great to next levels. **This month could be a time that helps mind muscles relax. "8" denotes recipes perfected; no missing bits.** "4" represents building well. Do you sense how both vibes target "ingredients"? What do you build with your affirmations, methods, models, thoughts, moods? All numbers point to silent dynamics. What mind interacts with shapes what comes next. It's a server that emits instructions. Don't be surprised if "August" highlights such things.

"8" is an active vibration. A few of them see lives busy. Alongside "5", it adds to momentum physically and invisibly. "8"s and "5"s can load existence with more stuff to process. This can emerge as a louder sense of tension, urgency, push, stress. Reality is an energetic realm, not just a tangible scape. Moods, states and thoughts constantly flow, shaping responses and what is sensed. It goes without saying: people work best when not so pressured. **Yet wavelengths like this push self beyond perceived limits. This year wants "5" – self birthing into more possibility.** Egoic mind pegs itself in. There's always more of what's right and perfect.

"2029" flags position – the stances we take, aware or not. "2" denotes relating, sharing and, therefore, relativities. Comparison and sensing sideways can feature as lessons in "2". Spiritual connection is best had upwards. **"2" can ask people to release energetic links. This needn't mean rejection of others. We're all each here to sense our own way.** This can involve the release of dependence. A freeing of space to intuit well. This tends to bloom with an upward focus. Through this, self's assured of the best downloads. Source is amazing in how it guides people to stand with others solid and true. Rhythms like these may become loud(-er) as this month unfolds around you.

"2029" will also help us merge then space out to process stuff. Sydney-siders and others in lock-down are being helped along these lines. That's not making light of restriction but upsides exist even here. The trick is to look straight through the nothing so as to help good shifts begin. Negative nothing is an illusion, one that can hurt and stress at times. There's no need to dismiss hardship as easy, imagined or punishment. Easy to say from safety, this remains the spiritual prompt. **Silence and lack are not constant especially when we remember this. They're "simply" what's occurring now. The next second could be different.** The less we project negative thoughts, the more stuckness tends to shift. Easy to say, yet one of self's roles is to welcome newness in. That requires an emptying of things which might fill the delivery dock. Everything starts on the energetic level. Thoughts and feelings can boost or block flow. Deliveries can't be had too smoothly if space is

clogged with negative vibes. We're energetic emitters and channels; thoughts/affirmations act as guiding rails. Exercise, time-out and balance process lack. "2029" is sure to guide you well.

"9" appears in this month's birth number. It speaks of closure at any time. It flags the end of certain dynamics, especially ones that don't do self any favours. Here, too, is a message re thought waves and the need to mentor them. Being human means ups and downs; moments of bog then clarity. That's just life. **Constancy's unreal. What matters is whether we let ourselves try. Rolling can sometimes feature but needn't mean failing in life.** "5"s and "8"s want success which, sometimes, involves toughening up. That might relate to physical muscles but, more often than not, it points to self-support. "You can do it!" is "5"s catch-cry. "August" could flag this louder for you. We often succeed via some rough tracks. That is just life. Don't give up on you.

### **This month's M.O.s are "17/8" and "112/4"**

"8" and "4" are repeating here!

Notice such things because this reinforces statements made above. Repetition inflames dynamics – e.g. themes around success, growth and building well. "4" represents self's launchpad; ensuring we're maintaining that well. Rockets, projects, require good groundwork. A solid, healthy future calls for sound frameworks. **"4" is the phase self gets everything in place. It can audit plans and habits to help life play out as best it can. Life wants success on every level.** We're all still learning what this means. After hundreds of years, the invisible realm's only now in sound view. Gut feel – i.e. soul's barometer – intuitively guides us all to truth. Physical, immediate cues can mislead. Through what is sensed, self is guided healthily.

The M.O. flags how we are likely to embrace and channel the birth states more. The birth number flags **what** life is seeking as a spiritual goal. "17/8" and "112/4", this month, will guide selves to better "8" and "2029/4". It's the **how** in things that often wakes self up; rattles its cages; helps us be truer. "1" and "7" could target self's stances. "7", said elsewhere, wants us learning practically. This goes with that; those things don't fit well.... you might find yourself making such statements. **"7" is learn, teach and share wisdom. Through this, we end up more sturdy and certain.**

### **“August”'s reality numbers are “25/7” and “2141/8”**

more repetition: clarity and hitting target will feature

Learning how to grow anything of value always involves mucking things up. We're here as souls to channel wisdom as an offering and guiding line. Zones like “Aug '21” can enervate. “4”, “7” and “8” also feature in this part of this month's chart. Energetic themes I've outlined above could, therefore, grow louder. The reality number denotes the end states self is due to foster as s/he embraces the birth number and M.O. states. **We don't always flow well with life; some days, we argue or wrestle with it. No number speaks of certain outcomes. What manifests flows from choice.** This month might merely flag what we're to grow (not, so much, see it manifest). Numbers denote lessons **and** achievements. Both sides of life can guide us well. We often have to get a few things before creating what's really stable. “August” is due to help people fathom their “how” to the next degree.

“25/7” says that, via relating and adapting, wisdom will flow. “5” represents evolution and the need to be flexible. Tolerance, forgiveness, patience, forbearance also emerge when “5” features. Such dynamics, of course, play a key role in relationship. This month's numbers are active and passive, suggesting a time for action **and** reflection. We often wise up as we interact. This month's profile speaks of more awareness. **Waking up is a “4” hallmark; perfection a part of “8”. This month could guide you into such states.** “2”s and “1”s stay at high levels. That's just the drill in the “202-“s. They're evenly matched, this month, so inclusion could become a stronger feel. We'll arrive at more wholistic “succeeding” (“8”) through “7”s, “5”s and “4”s. Remember, this year wants people shifting and rebirthing in meaningful ways. “8” denotes the moment we break out having attained a real-life desire. Life can go off whenever that moment resonates with universal goals.

Collectively, this month, we're master-number-free. This may not apply to your personal chart. It signals a, somehow, gentler time no matter the size of any waves that unfold. Trust in “5” as a year and chapter. It's here to help you sense and birth your future well. That can involve hairy moments but, through them, we strengthen resolve. **Egoic self is short-sighted. It always predicts out of ignorance. We've no idea of all that can come next.** Challenge only comes to help you beyond “I can't” and “Life won't”. Doors only stay shut because life wants you knocking on better ones. Be present. Breathe to grow goodness. This “August” seems determined to help selves receive as partners with life. The more we get out of pushing, selling, making, the more life tends to flow as we know/sense it can. Practise this by respecting your time-out. Meditate to clear. Process tension. This month could help you connect more divinely as a practical, physical soul.

## What about your chart?

We each have a specific numerological profile that stems from our date of birth, full birth name and last birthday. I've outlined the collective rhythms for this month but have not talked about your **personal chart**. **Readings that merge numbers with intuitive downloads can help you transition through all sorts of things.** They're all about soul - linking to and channelling it more - and what can occur when we do this.
