## "SEPTEMBER'S NUMBERS

Every month brings its own dynamics which interact with the year's chart. Outlined below are the main numbers followed by my *Observations*.

### This Month's Chart

	<u>each year</u>	<u>in 2021</u>
<b>Birth Number</b> - what we're here to be/become & exemplify again	<b>9</b>	<b>2030/5</b>
<b>M.O.</b> - how we're likely to arrive at that point	<b>40/4</b>	<b>135/9</b>
<b>Reality Number</b> - the spiritual result(s) of doing such things	<b>49/4</b>	<b>2165/5</b>

### "September 2021's numerological tally....

Combined with the year's numerological profile, this month produces the following count. Examining a chart from this angle can help us understand what's going on. It doesn't, in itself, signal "good" or "bad" (life often delivers a mix). What we can find initially jarring often promotes better existence. **A**

**count like this can help us process and make sense of things. When a number presents three or more times, its energetic and spiritual themes (and lessons!) increase.**

The tally for this month is:

Number	0	1	2	3	4	5	6	7	8	9
Frequency	4	6	5	2	4	7	2	-	-	4

Let's look closer at this.....

### **“September”'s birth numbers are “9” and “2030/5”**

closure, placement, creating, new

All of these states make life exciting, especially when we're doing well. **“9” is a time that helps self feel sorted, ready for more, organised. Freedom abounds, let alone empowerment, when we choose to release obstructions.** “2030” is potent; two “0”s hint at a more spiritual period. Implicit in this is one's connection, intuition, invisible things. That can trigger the need for more time out to process what unfolds. How we tend to mind and mantras, every day, affects what next comes.

“0” can signal spiritual past-times; implicit in this is the need to digest things. Through lessons in placement and relating (“2”); moments of loss or not enough of anything (“0”); **and** realising how we impact flow (“3”), goodness looks due to bloom (“5”). This can play out on any level; states that are right intuitively **feel “good”**. This is where the sixth sense helps; learning how to read energies and vibes. **Manifesting well anchors in connecting. Humans can spend a lot of time going sideways. That's not bad but, entertained too much, horizontal focus breeds egoic views.** Balance re-presents whenever we let fresh air back in. Spiritual flow's not birthed on the outside. It's truth as a unique, caring stance. We all know what goodness feels like, deep down. Exclusive – i.e. binary - states and perspectives always birth from egoic “1”.

“2030” could prompt reflection re what and how you co-create. “3” can be a potent mentor, prompting a review of what self enables. It can denote creative aspects – e.g. art, craft, entertainment. Here, it invites people to discover more about all sorts of things. **“3” reveals more about flow - giving and receiving; living cyclically. Here, it flags communication: verbal, non-verbal, silent and intuitive.** “2030”, this month's specific birth number, could get people talking. With “5” as an outcome, your views might evolve. This could include any perspective – personal, collective, historical....

If nothing else, through movement and silence, realisations seems sure this month. When “0” appears between numbers, it can signal more need for time out. I've pointed to this already - here, let's discuss “0” as “zilch”. It can depict losing or lacking. People in lock-down, let alone war zones, are not new to such things. **Yet, “0” is “Nothing” as stillness pre-movement; the birth place of path and all it needs. It presses people to breathe and relax mindset and tension to let newness in.** Everything's linked. We are all receivers who constantly shape delivery docks. A few “0”s suggest moments that come to hone long-term health.

### **This month's M.O.s are "40/4" and "135/9"**

"4" hones frameworks, viewpoints, methods

..... it's a time for adjusting and always seeks quality. "0" emerges here as well to form a second master number. It can mean not enough information, cash flow, progress, acceptance... **Anything self makes too-/all-important can be used as bait for essential growth. As we remember to trust in flow, goodness begins to solidify.** Here, "0" marks Source as the birthplace and human as its partner in creation. It pays to keep out of the future simply because it hasn't arrived. That doesn't mean one shouldn't plan things yet what we affirm shapes what happens tomorrow. "0" asks selves to stop telling Source what, how and where to give. Lessons in presence abound whenever noughty numbers present.

"4", as awareness, couples with "0" to boost appreciation. Being open to how things flow can help to attract whatever self's seeking. Our position as sharers and exchangers – not just do'ers – has an impact. "0" denotes Source saying, "Boo!"; "I'm real"; and "Link in to attract". **The Divine is constantly communicating, using gut feel, dreaming, other beings and life as signs.** The more we know this, grounded and present, the more we help life bring what it can. Intuition helps us understand things. How we reference shapes what we "get". Master numbers come to strengthen spiritual connection. This month's two "0"s could amplify these types of dynamics.

Are you nurturing – i.e. taking care of - spiritual life as a basic need? Like breakfast for some, connecting with soul self is less negotiable now. Limitation comes to invite selves into greater openness. The dare is to channel higher, purer. The M.O. flags **how** we will do this. "4" likes to plan; like "9", it organises and can play out as a need to review things. Preceding "5", it flags the groundwork implicit in launching brilliantly. **"4" gets us ready; pulls towards what's right as it is felt at core. Life wants all rockets flying, on-mission all the way through.** "4" helps tighten mindsets from this angle; "9" removes blockages. Interspersed with "0"s, this month looks like a phase for meaningful prep.

"9" also wants compassion that's balanced; "4"s the tsunami; "9", the clean-up. There are many ways to read this month's profile; wholesome, productive change seems sure. Active and passive vibrations are conspiring to spur constructive movement. Here is a hint of practically spiritual gains, outcomes, perspectives. **Divine help is always real-life focused even when it comes via hardship. Self is wired to connect to goodness but our outer wrapping can get in the way.** The universe constantly shows us how to effect outcomes without causing mayhem. Integration is key; all angles add when egoic self's well-mentored. Wholeness only prevails through intuition. There is no faulty radar. Problems birth by misreading signals.

### **“September”'s reality numbers are “49/4” and “2165/5”**

eyes open and mindsets sharpened for growth, progress, healing, more

A few numbers repeat in this month's reality numbers. “6” is new – the vibe of healing, genuineness, health. It represents caring, loving, teaching, serving as objective support. Such states always manifest strongly when we are real with self. Truth, therefore, re-presents here; this month could highlight noteworthy things. **“4” is the builder strengthening moorings; investor and reaper all at once. What are you trying to harvest? Does it sit well spiritually? Where would you like to end up?** Egoic self is short-term focused, sabotaging future frequently. It's a natural, normal, human dynamic that is best mentored constantly. This needn't breed suspicion of self; “human” means “adult **and** child in one bod”. Change is assured this month – newness, stretching, those sorts of dynamics.

You may experience breakthroughs about what really matters. What can you release for the future? The universe hates empty space. Releasing helps people make room for the good they sense and know. Self and other feature, as usual; learning through difference and sameness. This month could heighten energy levels, jarringly or pleasantly. **With one hemisphere nearing Spring-time, don't be surprised if newness pops in. This month could find you re-shaping pathways especially if you reference well.** Use time out to foster healing and respect what you sense via “gut feel”.

The body is an amazing radar; always informing, not always heard. The more we remember that energy moves, the more we can heal real worlds. This needn't be exclusive of medicine; nor should it mean mindset universal. What matters is whether self listens and to what level of “I”. Meditation helps people process; so does rest and exercise. The same old recipe counts in every moment. Balance flows from quietness; moments that relax, let alone soothe. Imbalance, tension, oddness and down states only ever surface to help what is soul reboot.

### **What about your chart?**

We each have a specific numerological profile that stems from our date of birth, full birth name and last birthday. I've outlined the collective rhythms for this month but have not talked about your **personal** chart. **Readings that merge numbers with intuitive downloads can help you transition through all sorts of things.** They're all about soul - linking to and channelling it more - and what can occur when we do this.
