

## The Monthly Observations

*for April 2023*

Welcome to Psychic & Energy Work's *Observations* for this month. They profile "April" in spiritual, energetic and numerological terms. The aim is to help you process what emerges through a wider lens where that's needed. Implicit in this is intuition; how we interface with the world of energy. Thoughts, feelings, collective vibes influence everything.

These *Observations* can be worth reading with *This Year's* forecast. It's due to offer noticeable invites to channel your next gear.

### Recapping last month...

"March" seemed cut through, albeit gentler. Did you start sorting and breaking through stuff? This year is offering clarity to people; generating more of a "getting on" space. **Last month saw people stepping forward mentally, physically, energetically. We are all, of course, still emerging from lockdown. It's amazing what patterns and habits breed.** Within this is a sense life's reawaking; more space to focus, ponder, decide. If you found "March" continued helping you in this sense...? Congratulations. Keep going!

Read what I wrote about last month in [The Archives](#). Get in contact here to learn more about your profile.

"March" sought change; progress on key points. **What, in your world, had a reboot? Have you sensed things lightening in or around you?** This is very much part of "2023's" brief. "7's in its chart want folk linking more into soul; not so much judgment and head stuff. It's amazing how such things can weigh us down. We often feel lighter having gleaned more about self and how life plays through for "I". Easily said! Last month brought key planetary shifts, too. This year seems determined to clear process, mind and space. [Click here to read my \*Observations about 2023\*.](#)

## “APRIL”S PROFILE

Every month brings its own dynamics which interact with the year's chart. Outlined below are this “April”s key aspects followed by some *Observations*.

### This Month's Chart

	<u>each year</u>	<u>in 2023</u>
<b>Birth Number</b> - what we're here to learn, become & exemplify again	<b>4</b>	<b>2027/2</b>
<b>M.O.</b> - how we're likely to arrive at that point	<b>29/2</b>	<b>138/3</b>
<b>Reality Number</b> - the spiritual result(s) of doing such things	<b>33/6</b>	<b>2165/5</b>

### This “April”s numerological tally....

**Combined with the year's numerological profile, this month produces the following count.**

**Examining a chart from this angle helps us understand what's going on.** It doesn't, in itself, signal “positive” or “negative”. What we can find jarring comes to promote better states of being. A count like this can help explain things.

The tally for this month is:

Number	0	1	2	3	4	5	6	7	8	9
Frequency	3	5	9	6	1	2	2	3	2	2

When a number presents three or more times, its energetic and spiritual themes (and lessons!) tend to increase. Let's look at how this month could present in your world.....

### “April”s birth numbers are “4” and “2027/2”

further reinforcement of platforms and self

**“4” marks foundations; “2” reveals more about the stances “I”, “you”, “we”, “them”. “4” wants people's bases healthy – of a good calibre and depth.** It can be a phase that overhauls whatever isn't constructive now. “2027” travels through “11” as it reduces to “2”. “Eleven” flags truth as a universal current; a zone where all selves are nurtured in that. Together, these vibes speak of perspectives coming into better-grounded/-rounded alignment.

“4” can prompt reviews of how, why, where and what we're up to. Life only does this to guide selves to make better headway, somehow, than they had been. “4” also denotes assumptions, projections - that includes planning and forecasting things. Are your forward views and/or frameworks as good as they can be? **We can always tweak again somewhere, somehow. That's the nature of growth. It's**

**endless.** "Four" can unfold like a building inspector checking best practice prevails. It's all about the base; how we launch rockets; and ensuring everything's in line and bullseyes are hit.

"Four" also flags awareness and all that ensues when that plays through. The Divine is vested in **all** layers of self. Everything's geared towards balance, peace, fairness. **Through peaks, troughs – what is and what isn't - we come to embrace goodness as the key to growth that feels fitting on every level.** We only witness that when we nurture small **and** great in inner and outer realms. Where might life help along these lines as you journey through this "April"? Make time to check stances re what's next on your path - your own or other people's – to embrace the best of next. This doesn't always need enormous steps. Such is the joy of working with flow, spiritually.

Teeny weeny steps can prove rightness just as much as big ones do. We're each dared, of course, to constantly live to, respect and honour gut feel. The main thing is "try". We're not just here to receive even though that's key in manifesting. **Through small steps and breath, we help Source guide all well. It's a bit like playing poker: success asks self to show its hand. "4"s also build, bit by bit, knowing best interests will always be served.** Human goals aren't always fully sated but that's how life ensures egoic self's released. Universal will always prevails. Focused longer term, Source supports to keep life in check. Life doesn't always play out as pleasant yet self only worries outside of connection. That doesn't mean bad stuff doesn't exist. Yet breath and long-term focus often help tension shift.

"2027" is concerned with positions – yours, mine, every-one's and -thing's. How are you standing? **What is your purpose, place, value in things? Have you "found" it yet – i.e. remembered that you are whole? We are all perfectly imperfect.** What are others channelling and, therefore, revealing to you as being possible (or not)? Can you position more effectively – spiritually, constructively - in space? "11" can nudge self to partner with life more consciously to spur balanced growth. We manifest best having made room to receive. Egoic self's a one-topic thinker. Progress and release can happen at the same time. Hence, this "April" could reveal how you could multi-skill more as an influencer.

"202" flags the need for space to witness – make sense of life – so as to sense what to do. **Releasing what's loud and skewing focus helps selves determine what's best to be and do. Only egoic stances and rhythms make that an exclusive sphere.** It's possible to think of all at the same time – i.e. actually create total win-win. "April"s six "3"s could find you realising such things deeper, stronger, wider again. Choosing to be guided by the highest ensures we attract and create what's "best". "Three" means "creating" and "getting sharper". These streams can also run side by side. This month seems sure to help folk in this sense. Through this, creation gets to reboot, heal and clear whatever isn't well-aligned.

"11" and "7" are interesting wavelengths, often delivering more soul-full-ness. All numbers do this but some are more pointed in how they invite self to grow "up". We constantly choose the level of being we're offering, thinking, encouraging. "Double one" often triggers a noticeable increase in focus and resilience. **We're all partly soul and part egoic. Both of these aspects play a part in healthy growth. Limit helps selves sense where to step free but only when they remember they**

**have choice.** "1" says "back your horse" – respectfully, care-fully - in a way that transmutes lower-level vibes. It comes to encourage more inclusive creation. That needs self valuing integrity as its guide.

Leadership is "1". Honesty also. Where can you channel these wavelengths more? Reviewing the above, "April" seems likely to help people step more truly, lightly, somehow. **In planning and engaging, "2" teaches people how to relate globally in ways that cater to all essential needs.** Surrendering self-ness helps us do this more consistently. That needn't mean abandoning ambitions. We're multi-skillers. Concurrent threads are possible. The world needs everyone listening and offering in ways that are open. Through this, we deliver what is needed in a way that supports all of life equally. Don't be surprised if this month shows you how to value-add as a future loving being.

One thing's for sure: "April '23" looks certain to trigger meaningful progress and change. I could save this para for the M.O. section given that "11" also presents on that level. This month's "7" birth number prompts me to place it here. **"Seven" flags the point self aims higher; consciously connects and values soul. Doing this links us into universal wisdom, beyond what we think, believe, know.** This helps us clear, heal and understand past, present, roads ahead. As we do this, we begin to channel bigger picture, higher-level wisdom. Returning to nothing taps self into everything. Divinely-referenced energy work always adds value.

Inside and out, everything's connected. We forget such things often. Healthy focus and breath always grow what's really essential. It's amazing what can shift when we choose to release every-one and -thing, just for a second. **This month seems sure to help you reboot and intuit more spiritually. That always triggers some sort of breakthrough, even if only perceptual.** Yet this is the stuff all of life is made of. Everything births from what we know, think and feel. Implicit in this is a greater sense that all is "right". Everything shapes long-term "success". By learning through what's lower, life helps us aim higher. Achievement, of course, isn't one-dimensional.

### **Fran's Clearing Cards® help you connect**

Life flows best when we let go of egoic self. Mind can pull us off-track at times. Taking time to reboot makes a difference.

Everything's linked and explained, assuming we give that the chance to occur. **Psychic & Energy Work's Clearing Cards® carry two levels of message. Either or both can help you shift and intuit more.** To purchase or read more, go through to my [Shop](#).

**This month's M.O.s are "29/2" and "138/3"**

two subtle "11/2"s will nudge selves to embrace more of what's truth

"2" is a zone that helps eyes to open. "9" is a sphere which sorts things out. "3" makes for more intuiting – therefore, insights about all sorts of stuff. "Three" is "create", revealing self as magnet; more about how we attract and repel. **Receiving's the stance required to birth goodness. "8" flags "success" as that moment life feels fitting/right again.** All of these rhythms could play through "April" as we progress to the 28<sup>th</sup>. Where do you sense things could shift for the better? Don't struggle with life. Witness to shape and embrace it.

"Two" also speaks of socialisation; a zone we can relish or want to flee. Rules, customs, morés, gatherings.... What fits you well? To whom or what are you allergic? Knowing your place, value and purpose often present to work through at "2". **Expression is potent as outcome in "3" zones - daring to allow that on every level. Everything informs when we allow it. "Bad" only emerges to help issues heal and clear.** Easy to write but we keep stuff in balance by viewing up's and down's as something to ride with. Life, as a sine wave, requires expression; uttering that gets issues resolved. Not always out loud; some days, perhaps. Everything has a spiritual role.

So, there's no need to fear what mind or mouth can offer when we understand it's there for a reason. This doesn't mean we'd always choose what we're offered. We all prefer pleasant, positive views. **Heaviness only comes because of what first caused it. Lower level rhythms seek release. Where might space and breath help you connect and clear down views and restriction?** We can all overly connect to and channel egoic dynamics. They're potent life drivers. Many are unconscious. This month's two "11/2"s and "six 3"s could see certain truths calling for air.

You know, "11" forges; helps us understand, channel and accept self all over again. That's a universal quality trait; not isolated to one personality. Egoic or soul, self-ness is a rhythm that presents constantly. **We can understand all once we've trodden the same path. Connecting to divine wisdom, hence guidance, helps a person access this.** Doing this helps us respond maturely, fairly, as value add. Spirituality is an objective offering, experience, space. Separating person from dynamic can help selves engage effectively. It guides us out of all the limited "you" v "me" stuff into better co-creating positions.

**"1" is adult grounded in fairness. What might "April" reveal on this? By looking past the surface, we help ourselves become more constructive mentors, engagers, offerers.** "Double one" boosts clarity especially when energetic health is nurtured. It's the big picture revealed in ways that help us fathom more again somehow. Through this, life helps self get wiser in its continually shifting and evolving worlds. This month could highlight how to place yourself as a player, creator, mentor, shaper. Dare to explore and witness to grow good. It's often from this point that we live life as true "me". "11" spurs growth, maturing and, within that, the shedding of now-redundant child-ish skin.

Another point...? Life is forever onwards and upwards, out of egoic habits and vibes. At each new level, self soon settles in to foster new stuckness. That's rarely intended. It's "just" a by-product of familiarity. Through egoic vibes we witness and learn how to best get to our "what is". **There's no**

**need to learn when divinely connected. We're already sensing all there is to know. Dissonance invites self to step lighter, higher.** "Double one" elicits the "I", "me", "my" we're here to channel. Discovery, then, is signalled for this "April". This augers well. The pathway's always up. So? Do and be what you value, know and sense. Authenticity is what makes goodness birth and last.

To sum.... "29/2" and "138/3" are about to help folk learn about and become more spiritual "4" and "2027/2". More groundedness, preparedness, etc; universally valued value-adding; bigger picture views. New South Wales has just had an election. Big shifts in votes and, therefore, what comes next (it's hoped). Is care coming back? **Growth is only one goal but how does each person define that? Wealth is not just a monetary figure.** It matters, yes, but so do aesthetics - within this, ethics, moods, treatments.... Where might your world get real(-er)? This year and month could well assist you to manifest better collectively again. Everything's connected and impacted by what each individual takes in, values and projects.

### **"April"s reality numbers are "33/6" and "2165/5"**

through stretching awareness, the universe helps us heal and grow

**"33/6" is a master number focused upon healing and processing things. Authenticity is its key output. We can't get to real peace 'til that's what we're emitting.** Through this, life helps us co-create more love, care, concern as world needs now. "Three" and "6", together, speak of space to process whatever needs attention, in the name of getting the balance right. As master number, "33/6" can up the ante on such things. Interestingly, the "5"s in "2165/5" could amplify or counter this.

Where "6" feels supportive, "5" can seem care-less – a stripped, abrupt, "get on with it" zone. By leaving people to "it", Source helps individuals dive a little deeper; discover more of their strengths and potential. "Five" is change, variety, adventure. It always seeks newness in some form. All numbers call for spiritual being. That, of course, isn't always offered. **Every moment presents choice and newness. Every second, options to view. We don't always remember this. Some days, it can seem as if there is no choice at all. Yet, even here, we're buyers, choosers, enablers, impactors.**

Models and opinions can propose life's x, y, z. The zone "2000"s is challenging that and, in the process, pushing buttons and stretching mindsets.

We are only puppets, victims, powerless for as long as we think we are. "5" is "you can" and "life always supports you". Self's sense of this increases the more it spiritually connects. Implicit in this is intuition; learning to respect and work with gut feel. **Dare to be true to what you sense. It's only ever presenting to help. Humanity is still learning these facts. Thousands of centuries have suggested otherwise.** Mind is amazing but intuition beats it, especially when it's moored in divine wavelengths. The universe has everyone's back all the time, all at once – nothing is missed. It functions as conductor, passing on its wisdoms so as to get essential needs met. We're all "simply" players in a larger picture. The more we know how divine guidance presents, the better we share in life as an amazing journey.

So? Dare to spend some time, this month, linking into the highest, widest, purest vibes. **Source – the Divine, Universe, etc – communicates constantly and big time. Give It the space to do this in your world. Don't hold that only to moments which are "spiritual".** By helping you, Source ensures that every-thing and -body journeys well, too. Win-win's the goal and ultimate outcome. We're all living short-term no matter the length. "2165/5" could see certain views stretching in ways that enable more soul-level self. This month and year, as zones, are abundant. Lack is not a given unless egoic self's driving. Negativity, limit, tension, fear, doubt and stuckness are signs that we "just" need to clear.

### What about your chart?

We each have a specific numerological profile that stems from our date of birth, full birth name and last birthday. I've outlined the collective rhythms for this month but have not talked about your **personal** chart. **Readings that merge numbers with intuitive downloads can help you transition through all sorts of things.** They're all about soul - linking to and channelling it more - and what can occur when we do this.
