

The Monthly Observations

for February 2022

Welcome to Psychic & Energy Work's *Observations* for "February 2022". I hope your new year has started well and that you had a nice break. **The narrative below profiles this month through spiritual, energetic and number-helped filters. It can be useful reading it together with the forecast for this new year.** It aims to help you learn about and work with dynamics true to self. Implicit in this is intuition; how you're processing invisible stuff. Insights about the collective chart can really help us make sense of things. No matter our personal year or placement, what happens outside affects self too.

"FEBRUARY'S NUMBERS

Every month brings its own dynamics which interact with the year's chart. Outlined below are the key numbers followed by my *Observations*.

This Month's Chart

	<u>each year</u>	<u>in 2022</u>
Birth Number - what we're here to be/become & exemplify again	2	2024/8
M.O. - how we're likely to arrive at that point	42/6	134/8
Reality Number - the spiritual result(s) of doing such things	44/8	2158/7

"February 2022"s numerological tally....

Combined with the year's numerological profile, this month produces the following count. **Examining a chart from this angle helps us understand what's going on. It doesn't, in itself, signal "good" or "bad" (life often delivers a mix).** What we find initially jarring comes to promote better states of being. A count like this can help us make sense of what we need to. When a number presents three or more times, its energetic and spiritual themes (and lessons!) increase.

The tally for this month is:

Number	0	1	2	3	4	5	6	7	8	9
Frequency	2	4	11	1	6	-	2	2	4	1

Let's look at what this might mean for your world.....

"February"s birth numbers are "2" and "2024/8"

social dynamics will confirm what we want

What is success? An interesting question! It all stems from one's state of mind. "8" is a vibe that wants good stuff happening in every sphere. Within this is essential selfness; not just what's known or tangible. Great moments, you may have noticed, birth when all aspects of "I" cry, "Yes!" They, therefore, include physical, material, mental, emotional and energetic elements. Implicit in this is our inner voice and gut feel. **Success isn't real unless it feels right. Here is where "Feb" will continue helping us finetune things.** What better time of the year to do that?!

"2022" wants to help all selves. "8" denotes the visions we hold dear – ambitions, dreams, future scopes. It helps us sense what does and doesn't sit well. Here, it points to sensory downloads – their role in keeping journeys on track. **Intuition, in itself, is never dodgy; only the opinions which filter it. Learning to trust self is an "8" theme.** It helps us realise where life's not complete. During such times, people often sense that it's time to grow, leave, adjust. "8", in this sense, is the last hurrah in tapping into more of what's manifestable.

As a chapter, "8" throws the challenge: "You're not really happy? Whatcha gonna do about that?" With "4" also in the birth number this month, the dare in this could get louder. This number flags awareness and launchpad; a phase where such things are honed. At the start of a Water Tiger year – with Tiger meaning action – this is groovy. **Can you sense, here (and again!), how "2022" wants to set self up for blessings?** "4" is a time to review and vet; "8" also does that. Don't be surprised if this month guides you to wider, truer, more fulfilling aspects.

"2"s also feature in the birth numbers for "February". We're all being shown more about people, politics, society. "2" flags induction, marketing, morés; are customs truly legit? Australia Day proved a nice warm-up with more support for indigenous recognition. I'll probably repeat this often this year: **it's a potent time for influencing; making change happen; using vote and voice to shape things.** Spiritual shifts birth from good grounding. Written on the Home Page, this is worth restating. This year is wonderfully timed. People are tiring of "blind obedience" and slaving.

So? Now is the time to use (all) place and position to good effect. The universe is vested in the right outcomes. Source is constantly communicating. Spiritual being isn't something to call in. It asks for acceptance as a fact. The Divine is aware; ahead of self always, in every step. The more we know

this, the more we position to receive guidance in integrity. This is also a “2” dynamic - **relationship isn't confined to the realm of creatures. It also includes our connection with Source** – That which guides us - even when we're not “aware”. Relationship with soul needs us to choose what level of help and protection we want. Only then are folk active as partners in manifesting good flow. It's amazing what happens when we get out of the way. Partners in creation, we're here to receive then inject.

So? Don't be surprised if you observe such things this “February”. “2024” (this month's specific birth number) hints at this, too – i.e. room to process, rest, relax... catharsis... intuitive shifts. Such things require “blank” mind for input; empty canvas for Source to fill. **There aren't too many “0”s this month yet two could promote balanced living.** This flows from the chart, “2022”, given that it adds down to “6”. That dynamic flags healing and health check; equity, justice, peace experienced. Last month saw such states hovering. Maybe only covid - that's enough; maybe more. Linking back to what's observed above.... This month seeks good fit at deeper, truer levels.

My Clearing Cards® help you connect

This month delivers M.O.s of “42/6” and “134/8” healthy, solid progress is what this month seeks

The numbers, this “Feb”, should enhance viewpoints. They're skewed towards what counts; life beyond the surface. From the time I started writing about this year, last year, I was getting messages about this. The pendulum, life, will swing us back to centre (perhaps louder than we expect). Such dynamics are inherent in this month's M.O.s, “6” and “8”. Teaming up, they'll call for (more) truth; rightness as a constant vibe. **We'll glean things in “February” whilst noticing more re leadership and world affairs.** The baton pass from Grace Tame to Dylan Alcott, as Aussies of the Year, is a great example. The world's at a time of rebirthing. How can you help this?

“6” flags lessons in how to help life flow as we intuitively know it can. “8” denotes that as well. Both of these vibes highlight self's gut feel. This month's M.O.s reinforce the birth numbers above. All of this speaks of learning curve and fulfilment; time to sense how to live better again. That, of course, from a spiritual angle doesn't revolve around “I”, “me”, “my”. **Self matters but healthy flow is wholistic; all elements respected at once. There is no need to hedge, steal or oppress.** Eleven “2”s could show you how to live truer. “4”s also appear in the M.O.s, reinforcing earlier observations. It could be a phase that opens eyes and, with that, future scope. It's time to get going! The “3” in “134” will cement that. This vibe flags realising, shifting, creating, sharing. From so many angles, this month's productive. Use breath to moor well and bring that in!

“42/6” says that, by checking our foundations and relating well, we'll help good flow. It also hints that, this month, we'll become more aware. **“2” is the time we get movement in sync; it's about effectiveness.** “1” flags growth in self-knowledge; “2” helps people go live with that. In this sense

and from another angle, this month should finetune perspectives. How you step matters, don't it? "Feb '22" could help you master this.

"134/8" is interesting. "3" is realise and intuit; "4", research and glean; "8" helps us connect and manifest all we can be. **All of these rhythms flag strategic thinking; hitting the bulls-eye better again.** They can speak of individuals moving through such things or helping others to do so. That's worth observing: "4" is the builder, planner, promoter of good. "3" is the person who facilitates expression; connects others to inner/intuitive voice. "8" can see self helping others brainstorm, process, clarify. All numbers flag how we help each other as example, assistant, mentor, friend.

clearings, healings & meditations over video or phone

... not to mention readings and other forms of energy work. Life can presents in ways that stun, often just as we need to stay grounded. **Via phone, video or email, I tune in to help you understand and clear.** Sessions are recorded so that you can revisit the guidance you're given.

"February's reality numbers are "44/8" and "2158/7"

building well; learning what matters

"7" is a practical number. It denotes wisdom tangibly used. It also flags mind – how it can shape life. We all swing through that pendulum! **We have every number of the "0" to "9" chart, except "9", this "February". That needn't mean much but it's worth noting.** Monthly charts aren't always like this. "9" features, though, in the year's profile. With this, can come a greater sense of wholeness; less skew of focus on certain vibes. That's a furfie because some vibes still have higher tallies. This month could feel more stable/certain in some way.

"5" emerges, this "February", in the specific reality number. That vibe denotes the states we're due to manifest/get to by the 28th. "5" flags growth, flexibility, forbearance; a time of realising what's possible. Through people stuff, selfness, bending and learning how to cook, we'll learn new things. **"7", as a reality number, hints of lightbulbs flashing that self cannot ignore.** This could include amazing insights about yesterday, yes, but also tomorrow. Both types of insight help self get life right as a total view. "7" can be seen as time in life's classroom. Where are you ready for value-adding, wholesome news?

This month's reality numbers are karmic: "44" is master number; so is "16/7". The former signals quality checking; the latter, cycles closing. "16" helps lives come back to balance. It closes off themes past use-by date. Acting like this, it functions like "9" – they both want futures spiritually birthing. No matter what a person wants, "16/7" helps paths manifest as self knows they should. All numbers flag how the universe helps us beyond what we know. Through this, we learn life is a current that's more than we define it as. Spiritual and energetic health really matter, especially in the decade "202x".

Metal Ox to Water Tiger?

from mind and structure to flow, action and feeling

I'm not an expert in Chinese star signs so please research such things for more depth. [Theodora Lau](#) is a wonderful expert. [Google](#) to find your right expert. These things said...

Our shift into Tiger from Ox speaks of more action, energy, movement. Think of the beasts: Ox is slow and sure; Tiger is firey, more active. It could be seen as sharper than Ox. Where Tiger can spring; Ox steps solid. Both add value in their own ways. This new lunar year will feel different.

Metal denotes the mental realm; Air; at times, too much head stuff and thinking. That can benefit strategy and planning. Did "2021" help you do such things? **Water moves us into feeling and sensing; more caring, perhaps, and responsiveness.** This year's new element and lunar sign hint at more flow, expression and engagement. Life might start to feel more easy or constant, perhaps up and down. Ox can feel stuck when self digs its heels in. It can also use big sticks against rebels. We saw such things in "2021". Many are hoping for wholesome shifts.

Tiger's Western face is Aquarius so two Airy elements feature this lunar year. This can point to escapism – holidays! – more dynamic vibes that are open to change. I hope you can sense how this new lunar year could unfold for you. **It's due to be an uplifting phase that will ask us to ground before we leap!** That said, it will energise, embolden; wisely or not, both states could grow. "February"s numbers will help Water Tiger. Lots of passive vibes will mentor what's "over the top". That doesn't mean no excitement. It just augers well for healthy starts. As usual, we'll benefit from remembering to use breath and centre first.

What about your chart?

We each have a specific numerological profile that stems from our date of birth, full birth name and last birthday. I've outlined the collective rhythms for this month but have not talked about your **personal** chart. **Readings that merge numbers with intuitive downloads can help you transition through all sorts of things.** They're all about soul - linking to and channelling it more - and what can occur when we do this.
